## Napa Valley Appellation Estate Vineyards

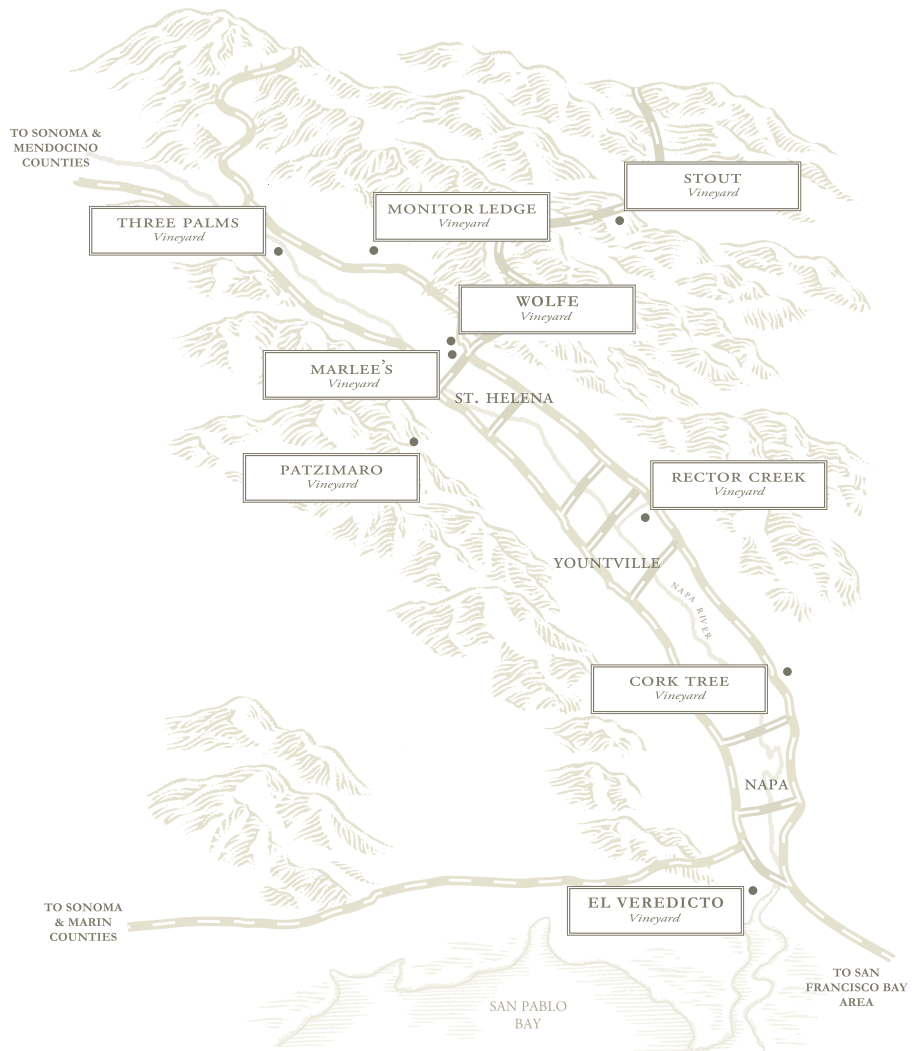

Diverse microclimates, weather, geography and soil types contribute to making Napa Valley a world-class winegrowing region. Since our founding in 1976, the Duckhorn Portfolio philosophy has always been that the essence of great winemaking lies in the vineyard.

Over 40 years of research and experience with Napa Valley winegrowing has shown us that exceptional fruit comes from distinguished sites that, like the legendary Three Palms Vineyard, have the right combination of soil, climate, exposure and farming techniques.

Today, the Duckhorn Portfolio farms over 1,100 total acres of estate land in California and Washington. With an average spacing of 5 feet by 8 feet, that is just under 1,250,000 vines. From pruning through harvest, we touch each vine no less than 6 times, often more, which means our team spends a lot of time in the vineyards!

### ACREAGE BY VARIETAL
